

INNER SANCTUM

THE INNER SANCTUM

The lost chambers of a mysterious temple

As a young student at university, Harry discovers a document in the library which contains a major revelation about a mysterious temple of lust. During an archaeological expedition he makes his ground-breaking discovery to find the legendary Inner Sanctum. The Holy of Holiest. The source of all lust and desires, where divine bliss reigns eternally.

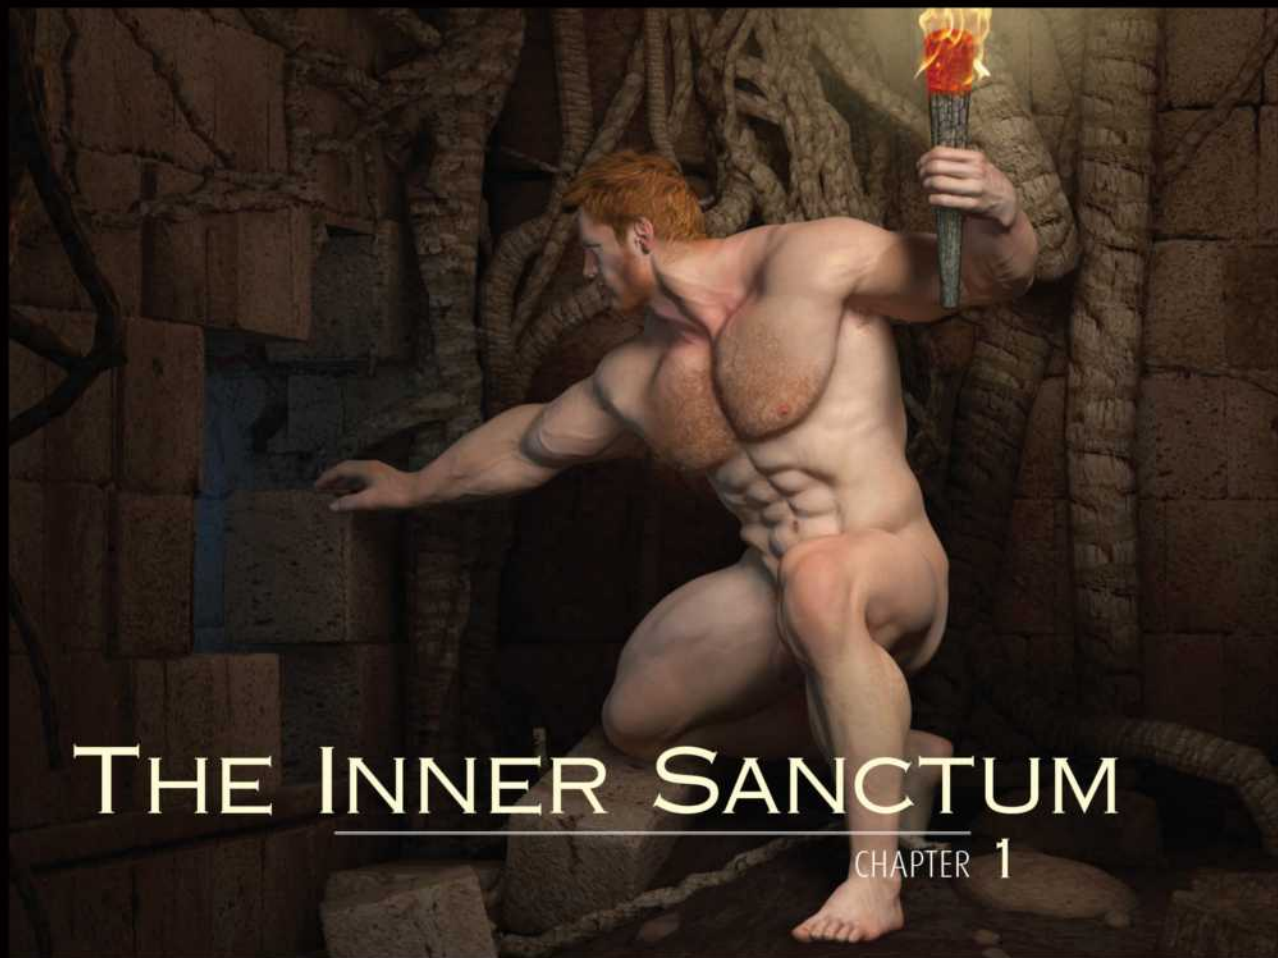

After his exhausting adventures in the upper regions of The Temple, going all the way in Ad Fundum and leaving The 7th Circle, Harry descends deeper into the mysterious labyrinth of tunnels, corridors and vaults of the ruinous sanctuary.

His taste for adventure and pleasure is undiminished, he keeps searching through forgotten chambers. After reaching the Antechamber Harry passes a series of tests experiments conducted by skeletal robots, an obscure alien creature signals from a distance that their human specimen is ready for its final herculean task. A large round door opens under the Vitruvian Ring and Harry falls to the centre of the phallic sanctuary, into the Inner Core of the Inner Sanctum.
